

# Our specialty is making complex care easier

Pharmacy Specialists provides patients with customized, streamlined, at-home infusion treatments while focusing on the most positive outcomes possible. We're a compassionate, purpose-driven partner for hospitals, care facilities and doctors, providing unrivalled, worry-free service and support.

## What our brand encompasses

### White-glove service

Our experienced team responds quickly, taking care of all the important details, from provider's desk to patient's bedside to home.

### Patient safety

Our highly skilled pharmacists and clinicians make sure the right meds get to the right patient at the right time.

### Insurance advocacy

Our insurance specialists work diligently to determine eligibility and coverage solutions, providing peace of mind and making care easier for patient and provider alike.

### Affordability

We're relentless in keeping our overhead low, working to lower co-pays for patients and beating our competition on price.

### Positive outcomes

Every aspect of our at-home infusion therapy services is focused on obtaining the best possible results
